

7th December 2012

Dear Sir / Madam,

NSF Registration of components contained within Cooltrans Sustain^{CTS}

Kilfrost Cooltrans Sustain^{CTS} has been formulated using a minimum of 83% (typically 92%) sustainably sourced corn derived propylene glycol. This component is registered with the NSF under the non-food compounds registration programme, as an ingredient for use in HTX1 heat transfer fluids (incidental contact). Registration number: 141749.

Should you require any further information, please do not hesitate to contact us,

Best regards,

Laura Clement
Regulatory Affairs Executive
